Any construction or earth moving on any Lot shall be in compliance with all laws relating to storm water discharge permitting. The Owner shall be solely responsible for the Lot with respect to compliance with all terms, provisions and requirements of any NPDES Storm Water Discharge Permit No. 2 and any storm water pollution prevention plan which includes the Lot.

XVIII. CERTAIN ANIMALS PROHIBITED.

No animals, livestock, pigs, snakes or poultry of any kind shall be raised, bred or kept on any Lot except that dogs, cats and other common household pets may be kept so long as they are not kept, bred or maintained for commercial purposes. In no event, however, shall more than a total of two (2) dogs and/or cats be kept at any one Building Lot at any one time. Dogs must be either kept in the dwelling or in a shelter aesthetically compatible with the dwelling and surrounding areas, and dog runs, if any, must be located at the rear of the house or garage and extend toward the rear of the Lot from that portion of the house or garage which is closest to the rear Lot line. All pets must be leashed and under the control of its owner if not tied up or kept within a fenced yard or dog run. Small chicken coops for private use are allowed, subject to all provisions of the Polk County Code.

XIX. ACCESSORY STRUCTURES.

Each Building Plot may have no more than one (1) customary and traditional accessory structure such as a tool shed, garden house, in-ground swimming pool, tennis court and the like. Any trash receptacle, or tool shed, garden house or other outbuilding of like nature, shall be properly screened by a privacy fence and/or shrubbery. Swimming pools, tennis courts, outbuildings and other accessory structures and improvements, including dog kennels and runs, shall not extend farther than the front line of the residential dwelling extended to the side lot lines and shall not be located within 20 feet of any side or rear Lot line, as the minimum distance established by the current Polk County zoning ordinances, or existing Code regulations as established in the Plat as recorded.

XX. SURFACE WATER

The topography of the Plat is such that surface water may flow from certain Building Lots onto other Building Lots. In regard to all matters concerning surface water, each Building Lot shall be subject to and benefitted by such easements as may exist from the flowage of surface water under the laws of the State of Iowa, as may be in effect from time to time; and all Owners shall have such rights and obligations with respect thereto as may be provided by such laws.

XXI. MAILBOXES.

The Declarant may, at its discretion, install neighborhood mailbox cluster units according to United States Postal Service regulations. The Owner and/or occupant of the Lot(s) on which a mailbox cluster unit is located shall be responsible for removal of snow and ice which would obstruct access to the mailbox cluster units by the mail carrier and other Owners.

Any mailbox required to be placed by an individual Owner shall be installed and maintained by the Owner according to United States Postal Service regulations.

XXII. SECURITY LIGHTING.

Security or decorative lighting for driveways, parking and other areas shall be designed, located and directed in a manner which will avoid direct lighting onto adjoining Lots.

XXIII. STORM WATER DETENTION FACILITIES, PRIVATE EASEMENT.

Each Lot benefits from one (1) storm water detention basin designed to control storm water runoff through construction and maintenance of storm water detention basins with outlet control structures as designated on the plat map, within Lots 1 through 14, inclusive, in Brooke Field Estates Northwest Plat 1 (the "Storm Water Management Facilities"), and the private septic discharge collector lines.

The HOA shall, at its sole cost and expense, maintain and preserve that portion of the surface of the Storm Water Management Facilities located within the Plat in good condition. The Owners of each respective lot shall not plant nor permit to grow any trees or other vegetative growth which might reasonably be expected to obstruct or impair usage of the Storm Water Management

Facilities. Such maintenance obligations shall include, but are not limited to, mowing, weed control, replacement of permitted vegetation, removal of trash, litter and debris and control of the flow of water and designed storage volume within the basins by keeping the basin outlets and intakes clear of sediment and debris.

In the event that Polk County has determined that the Owners of a Lot containing a portion of the Storm Water Management Facilities have failed to adequately maintain the surface of the Storm Water Management Facilities as set forth above within a reasonable time after receipt of notice from the County, the HOA shall become responsible to initiate all required remedial action, and the reasonable and necessary costs of such work may be assessed against the individual Lot Owner that is responsible; or in the alternative, against all lot owners located within the Plat, as the Association deems appropriate under the circumstances. Such assessment shall constitute a lien against the Lot Owner's property, or all individual Lot Owners, as again, determined by the HOA.

The HOA shall be required to make an annual visual inspection of all pipes, inlets, outlets and basins for defects, obstructions and changes from the Storm Water Management Plan and private septic discharge collector lines. Whenever the Storm Water Management Facilities shall, in the judgment of the HOA, require repairs, grading, dredging, replanting, alterations, improvements or maintenance as outlined in Section 9 of the Management Facility Agreement, and the making of such repairs, grading, dredging, replanting, alterations, improvements or maintenance shall have been authorized by a resolution signed by the HOA, the HOA shall proceed with the work. The total reasonable and necessary costs of such work, including the expense of materials and equipment, to restore the Storm Water Management Facilities to compliance with the approved Storm Water Management Plan, shall be allocated in equal shares against all Lots. The Owners of each Lot, for themselves, their heirs, successors and assigns covenant and agree to pay promptly when due all amounts so assessed against them or their Lot. In the event that the Owners of a Lot fail to pay such amounts within a reasonable time after receipt of notice, the amount of the assessment shall be a lien against such Owners' Lot. The assessment lien may be enforced in equity as in the case of any lien foreclosure by the HOA. The assessment shall accrue to the benefit of and may be enforced by the then current Owners of each of the other Lots.

In the event that the County has determined that the HOA has failed to perform any repair, grading, dredging, replanting, alterations or improvements necessary to maintain the Storm Water Management Facilities in substantial compliance with the Storm Water Management Plan and Section 9 of the Management Facility Agreement within a reasonable time after receipt of notice from the County, the County may cause such work to be done as necessary to restore such facilities into substantial compliance with the Storm Water Management Plan and assess the reasonable and necessary costs of such work, including the cost of materials and equipment, as a special assessment against the HOA and upon the Lots pursuant to Section 6(C) of the Management Facility Agreement, which assessment shall be a lien on each Lot, billed and collected as ordinary taxes.

XXIV. ENFORCEMENT OF COVENANTS.

This Declaration shall be deemed to run with the land, and Declarant or the Owner of any Lot may bring an action in any court of competent jurisdiction to enforce this Declaration to enjoin its violation or for damages for the breach thereof, or for any other remedy or combination of remedies recognized at law or in equity, and shall further be entitled to recover reasonable legal fees and costs if the Declarant or Owner prevails in any such action.

XXV. AMENDMENT OF COVENANTS.

This Declaration may be amended from time to time with the approval of the Owners. Such approval shall be given by the affirmative vote of not less than two-thirds (2/3) of the Owners. The Owner of each Lot (or the joint Owners of a single Lot in the aggregate) shall be entitled to cast one vote on account of each Lot owned. Provided, however, until the Declarant, or its assignee, has sold all of the Lots, it may make amendments or modifications to this Declaration without the consent of any other Owners or other party. Such amendments or modifications by the Declarant shall be effective the date the amendment or modification has been filed with the Recorder.

XXVI. PERIOD OF COVENANTS.

The easements granted herein shall be perpetual in nature. All covenants, conditions, restrictions and reservations created by this Declaration shall run with the land and shall be binding upon all parties claiming under them for the maximum period allowed by law, subject to the right of Owners under Section 614.24 of the Iowa Code to file a verified claim in the office of the County Recorder to extend the effectiveness of these covenants for successive periods of twenty-one (21) years each on or before the twenty-first anniversary of the filing of this Declaration and prior to the twenty-first anniversary of the filing of the last verified claim. Invalidation of any of the covenants, conditions and restrictions of this Declaration by judgment or decree shall in no way affect any of the provisions hereof, but the same shall remain in full force and effect.

XXVII. ENFORCEMENT AND WAIVER.

- A. In the event that any one or more of the foregoing covenants, conditions and restrictions shall be declared for any reason by a court of competent jurisdiction to be null and void, such judgment or decree shall not in any manner whatsoever affect, modify, change, abrogate, or nullify any of the covenants, conditions and restrictions not so expressly held to be void, which shall continue unimpaired and in full force and effect.
- B. The Plat shall also be subject to any and all rights and privileges of the City, now held or hereafter acquired, by dedication or conveyance, or by reason of the platting and recording of the Plat, or by this Declaration or by law. Wherever there is a conflict between this Declaration and the zoning ordinance of the City, the more restrictive shall be binding.

C. This Declaration shall not be applicable to property dedicated to the City, and the City may allow appropriate public use on city-owned property within the Plat.

IN WITNESS WHEREOF, this Declaration of Residential Covenants, Conditions and Restrictions, was made the date first written above by the Declarant.
